2. FURTHER ACTION

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1*bis*(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

3. For further details, see notes to Form PCT/ISA/220.

2. Citations and explanations

1. Document 1 CN1434610A discloses a communication system and method, used for connecting the wireless LAN to public network so that user terminal related with WLAN can communicate with public network.
2. Document 2 WO03065654A1 discloses mobile devices such as personal digital assistants or mobile phones can connect to the internet to another IP based network using WPAN and WLAN in infrastructures or cellular systems like GPRS or 3G.
3. The difference of the invention as defined in the independent claim 1 over the prior art includes the character "network determines whether network selecting information in the received message belongs to mobile communication provider connected by current WLAN". None of the prior art documents anticipate the content, therefore claim 1 is novel(Art.33(2)PCT) and inventive(Art.33(3)PCT) over the prior art.
4. Dependent claims 2-23 are truly dependent on independent claim 1, hence their subject matter is also novel and inventive.
